Luci Crow

Sedro-Woolley, Washington • (360) - 542 - 6335 • lucileecrow@gmail.com

I’m a determined person and I love learning new things. I'm always looking for areas in which I can expand my knowledge and where I can grow my career and mind. I've worked in Information Technology for 7 years total, 5 years as a Domain Administrator/ Imaging specialist and as a basic troubleshooter, and I've worked for 2 year as a Networking Specialist. I am a quick learner and I'm certified in Windows and Linux based systems. I’m also certified in security technologies and wish to work in a security-based role to expand my hands-on knowledge to match my certifications.

WORK EXPERIENCE

Skagit Valley College 04/2024 - Present
